

Financial Planning for an Uncertain Future

You are invited to a Special
Educational Workshop

Long-Term Health Care Costs can be the most serious risk we face!

Un-cer-tain-ty

: Increased by possibility of living too long
: Reduced with Guaranteed solutions

When illness strikes, the need for professional care is great and the cost will demand a significant increase in retirement income. Your investment portfolio should contain an account that will:

- **Guarantee your principal,**
- **Provide 100% access to your money at any time**
- **Create a fair rate of return, tax free to your heirs**
- **Provide substantial added income when long-term care is needed**
